

Lap Band and Money

Lap Band and Money

"I tried other facilities and it was all about the money," Rebecca remarked.

According to Rebecca, money never became an issue with the lap band facility she selected, as her insurer covered the entire process. The people at the Lap Band facility worked with Rebecca on her insurance coverage and she was cleared to go for surgery.

Rebecca notes that like any normal person, she was initially scared about having the procedure done, but the Lap Band center staff calmed her nerves and she made it through the surgery.
